The UPDATE Statement

the UPDATE Statement

used to update the values of existing records in a table

```
UPDATE table_name

SET column_1 = value_1, column_2 = value_2 …

WHERE conditions;
```

SQL

- we do not have to update each value of the record of interest

365 Careers

The UPDATE Statement

- **the UPDATE Statement**

  used to update the values of existing records in a table

```
UPDATE table_name

SET column_1 = value_1, column_2 = value_2 …

WHERE conditions;
```

SQL

- we do not have to update each value of the record of interest

- we can still say we have updated the specific record
